

Adding an Adaptive Release

On the assessment or assignment being released, you will select the down arrow under the title to access the menu and proceed to **Release Conditions**.

A menu will appear, and you will keep **All Members** selected unless you are releasing to a select group of students. You will have 2 options when creating Rule 1. A **Date/Time** or **Performance** based option for access are available.

Week 1 - History of Digital Media / Applications

Release Conditions

Limit access to this content by creating rules with one or more conditions. Course members will need to satisfy the conditions for at least one rule before content is released. Changes to the visibility or release conditions apply to the linked item and all associated course links.

[Add new rule](#)

Rule 1

Select members
Choose which course members and groups will have access to this content

☒ All members
☐ Specific members or groups

Date/Time

☒ Access from 3/3/25 11:59 PM
☒ Access until 3/4/25 11:59 PM

Performance

Gradable Item: Test 1
Requirement: 90 points or higher

[Add performance criteria](#)

The date/time section allows an **Access from** and **Access until** option. One or both can be specified when creating the rule. The performance option allows a **Gradable or Completion item** to have a passing score, or an access requirement met stipulation.

Week 1 - History of Digital Media / Applications

Release Conditions

Limit access to this content by creating rules with one or more conditions. Course members will need to satisfy the conditions for at least one rule before content is released. Changes to the visibility or release conditions apply to the linked item and all associated course links.

When will content appear?
Choose if you want the content to appear **before** course members meet the release conditions

☒ Show All course members can see this item in the content list, but they can't open it until all release conditions are met.
☐ Hide
